SoundBot®

SB551 Quick Start Guide & User Manual

PRODUCT FEATURE

KEY FUNCTION

Power On: Press and hold the Power On/Off button for 3 seconds until the LED flashed Blue.
Power Off: Press and hold the Power On/Off button for 5 seconds until the LED flashed Red.
The Headset will automatically turn off of not paired with a device after 10 minutes.

Connect the USB cable , the red LED light will illuminate in charging mode. A full charge of the battery takes approximately 2 hours.
The LED light will turn to blue when the battery is fully charged.
The LED will flash red with three alert tones every 20 seconds as a reminder to recharge the headset when the battery level is low.

- Multi-point Connectivity
- Voice Prompt
- Bluetooth 3.0 Technology
- Ultra light weight
- Sweat Resistant
- Battery level disply

PAIRING THE EARPHONES

1. Ensure the earphones are turned off. If they are not, please turn off the earphones first before pairing.
2. Press and hold the Power On/Off button for 5-7 seconds until the LED flashes red and blue. This will indicate your earphone are now in pairing mode.

Set the Bluetooth function on your device to discovery mode, search and select "SB551' from the list of available Bluetooth devices. Pairing mode on the earphones will last for two minutes. If no devices are paired after two minutes, the earphones will automatically switch off. If pairing is unsuccessful, turn off the earphones first and follow step 1 to restart the pairing process 1.

- Once you have paired the earphones with a device, the earphones will remember this device and will pair automatically when the device's Bluetooth is activated and in range.
You do not need to re-pair any previously connected devices.
- Your earphones can pair up to two multi-point devices.
You can reconnect a previously paired device without going through the pairing or PIN process on up to two devices.
